

<u>GENERAL</u> Creacase C-123 is a two-component, highly reactive, flexible hybrid polyurea based spray coating.

Application Areas

- Roofs
- Terraces
- Industrial surfaces
- Roads
- Parking Lots
- Pipes
- Car bedliners
- Pools

General Properties

- Fast curing
- Seamless coating application
- Application on vertical surfaces
- High mechanical strength
- Chemical resistance
- Corrosion resistance
- Abrasion resistance
- Environmentally friendly (VOC free)

COMPONENTS: Component		Product Name	Descriptions
	Polimix	Creacase C-123	Polyamine compound
	Prepolymer	Creacase CI-05	Isocyanate prepolymer

<u>PHYSICAL AND</u> <u>CHEMICAL</u>	Parameter	Unit	Creanate CI-05	Creacase C-123	Test method
PROPERTIES OF	Density (25°C)	g/cm ³	1.10-1.12	1.01-1.03	DIN 51757
COMPONENTS:	Viscosity (25°C)	mPa.s	500-750	500-750	ASTM D 4878
	Solid Content	%	100	100	Internal Flokser Method

CREACASE C-123 TECHNICAL DATA SHEET

REACTION	Control Character	ristic Unit	Value	Test	method
CHARACTERISTI			0.40		
	Gel time	sec	8-10	Internal F	lokser Method
	Tack Free Time	sec	17-20	Internal Fl	lokser Method
<u>COMPONENT</u> RATIOS:	Component	Product Name		Unit	Value
<u>KATIO5.</u>	Polyamine	Creacase C-123	Ву	weight	100
	Folyannine	Cleacase C-125	Ву	volume	100
	Isocyanate	Creanate CI-05	Ву	weight	110
	Prepolymer	Creanale CI-05	Ву	volume	100

<u>PHYSICAL AND</u> <u>MECHANICAL</u>	Parameter	Unit	Value	Test method
PROPERTIES OF	Hardness	Shore A	85-95	DIN 53505
PRODUCTS:	Tear resistance	N/mm	15-30	ASTM D 624
	Elongation at break	%	400-500	ASTM D 412
	Tensile strength at break	N/mm ²	10-15	ASTM D 412

CHEMICAL RESISTANCE

Creacase C-123/Test Medium	Result
Water (%100)	+
2,2,4 Trimethylpentane (%99,8)	+
Ethyl acetate (%99.5)	+
Acetone(%99.5)	+
Acetic acid(%5)	-
Citric acid(%1)	-
Hydrochloric acid(%10)	-
Phosphoric acid (%10)	+
Lactic acid (%90)	+
Sulphuric acid (%30)	-
Stearic acid (%50)	+
Hydrogen peroxide (%3)	+

Creacase C-123/Test Medium	Result
Ethyl alcohol (%95)	+
Isopropyl alcohol (%96)	+
Petrol	+
Bleach (%3)	+
Sodium carbonate (%20)	+
Sodium chloride (%10)	+
Heptane (%97)	+
Hexane (%98)	+
Fertilizer	+
Diesel fuel	+
H₂O/sugar	+
H₂O/ acetum 95/5	+

Creacase C-123/Test Medium	Result
Ammonium hydroxide (%10)	+
Brake fluid	+
Methanol (%99)	+
Butanone (%99.9)	+
NaOH (%60)	+
Olive oil	+
Propylene carbonate (%99.5)	+
Solid bicarbonate of soda (%0.5	+
Sodium triphosphate (%100)	+
Anionic surfactant	+
Toluene(%99.5)	+
Xylene (%99)	+

+ Resistant

- Not Recomended

In the test carried out according to the ASTM D 543 standard, 3 separate pieces from the sample are cut in the dimensions specified and kept in the specified chemicals according to the demand for 7 days. Samples are gently shaken every 24 hours. Before and after testing, the weight, size, mechanical and physical properties of the samples are observed and recorded to observe the change.

<DOC_KODU> Date of issue: <DOC_HAZ_TAR> Revision Number: <REV_NO>

PROCESS CONDITIONS:

Creacase C-123 (polymix) and the Creanate CI-05 (prepolymer) should be applied using high pressure and temperature spray equipment in order to ensure homogeneous mixture and application. Prior to the application, surfaces must be free from dust, dirt, oil and similar residues that will prevent the material adhesion. The application temperature should be between 70-80°C, and the application pressure should be between 120 and 200 bar.

Consumption: For 1 mm thickness polyurea coating 1,1-1,2 kg/m²

<u>HANDLING</u>	Storage: Creacase C-123 and Crenate CI-05 is sensitive to moisture and should therefore be
AND STORAGE	stored in sealed packages.
CONDITIONS:	Shalf life: Crossess C 122 Crossesto CLOE can be stored for 12 months in its original scaled

Shelf life: Creacase C-123 Creanate CI-05 can be stored for 12 months in its original sealed packaging at approximately 25°C. Storage at high temperatures shorten the shelf life.

Packaging: Creacase C-123: Available in 200 kg drum Creanate CI-05: Available in 220 kg drum

<u>NOTICE</u> <u>REGARDING</u> <u>SAFETY AND</u> <u>USAGE:</u> Material Safety Data Sheet (MSDS) will be provided to you by **FLOKSER CHEMISTRY** sales representative during the product supply. It is advisible to review this form before handling and use and also to check your own handling, safety and process contidions. It is necessary to dispose of the finished product drums according to MSDS. **FLOKSER CHEMISTRY** commits protecting human health and the environment during the production conditions and customer conditions. So **FLOKSER CHEMISTRY** is always ready to help its customers in this regard. Please contact to your **FLOKSER CHEMISTRY** representative when you need help.
